CONTENTS

Contents 3

Whole-Body Autoradiographic Study on the Distribution of ^{3}H-Cryptolepine in Mice. *B. K. Noamesi, B. S. Larsson, D. L. Laryea and S. Ullberg* 5

Endothelium-Independent Relaxation of the Rat Femoral Artery Caused by Activation of Histamine H_2-Receptors. *M. K. Krstić, R. M. Stepanović, S. M. Vučković and S. K. Krstić* 15

Characterization of 5-Hydroxytryptamine-Induced Relaxations of Guinea-Pig Proximal Colon. *S. Kojima.* 23

Irreversible Blockade of the κ-Receptor by a Newly Synthesized Dynorphin Derivative Containing a 3-Nitro-2-pyridinesulfenyl Group. *K. Koike, I. Takayanagi, Y. Hirakura and R. Matsueda* 33

Effect of CD349, a New Dihydropyridine Derivative Ca^{2+} Antagonist, on the Voltage-Dependent Ca^{2+} Currents in Isolated Mammalian Brain Neurons. *Y. Oyama, T. Nakaye, N. Akaike and K. Tsuchida* 47

Cardiovascular Profile of Oxodipine, a Novel Dihydropyridine Calcium Channel Blocker, in Anesthetized Open-Chest Dogs: A Comparison with Nitrendipine. *A. Alloui, J. M. Talmant and P. Duchêne-Marullaz* 63

Digitalis Glycosides Accentuate the Depressant Effect of Anoxia and Reoxygenation on the Cardiac Myocyte: Antagonism by Amiloride. *S. W. Rabkin* 76

Influence of Adrenaline on Blood Perfusion and Vascular Conductance of the Whole Pancreas and the Islets of Langerhans in the Rat. *L. Jansson* 90

Hypotensive and Regional Hemodynamic Effects of the Dopamine Receptor Agonist SK & F 85174 in the Anesthetized Rat. *P. Van der Niepen, D. F. Schoors and A. G. Dupont* 98

Contractile Effect of Endothelin-2 on the Isolated Human Saphenous Vein. *E. Poli, C. Casoli, I. Spaggiari, R. Starcich and G. Bertaccini.* 108

Influence of Endothelium on the Vasoconstrictor Effect of Dihydroergotamine in Pithed Rats. *H. Müller and E. Glusa.* 120

Effect of Long-Term Administration of Two β-Blocking Agents on Myocardial Structure in Spontaneously Hypertensive Rats. *A. Monopoli, E. Ongini, C. Lagrasta, R. Ricci and G. Olivetti* 129

Calcium Entry Blocking, β_1-Adrenoceptor Blocking and Hypotensive Effects of YM-16151-4. *K. Shibasaki, W. Uchida, Y. Matsuda and M. Asano* 140

Effect of Brain Mast Cells Degranulation on the Corticosterone Response to Stimulation of Central Opioid Receptors in Rats. *M. Turoń, Z. Chlap, A. Gądek-Michalska, J. Bugajski and G. Połczyńska-Konior* 151

Pharmacological Study of Bacterial Lipopolysaccharide-Induced Airway Hyperresponsiveness in Guinea-Pigs. *H. Nagai, F. Tsuji, S. Goto and A. Koda.* 161

Relationship Between Gender Difference in Intravascular Aggregation of Platelets and the Fibrinolytic Pathway in the Rat. *A. O. Oyekan and J. H. Botting* 176
